Announcement

IN PRESENTING you with my eighth Fall Catalog, I would like to have a few words with you; principally to assure you I will strive to serve you in the same satisfactory manner as I have for the past thirty-eight years. This Catalog is very modest compared to my Spring Catalog and has been made possible through your patronage. Through giving your orders my careful personal attention, I have been able to increase my business by leaps and bounds. Probably you can recall when my Spring Catalog contained nothing but Dahlias and Gladioli. Each year I have added to it.

Twelve years ago, I purchased the entire stock of Peonies of George Hollis, the well-known Peony Specialist of South Weymouth, Mass. I came into possession of one of the most complete collections of Peonies in the world, as Mr. Hollis had all the well known varieties, together with rare French, English and Japanese sorts and a large number of his own seedlings, which he had been hybridizing. Many of his seedlings had been introduced, others were still unnamed. For the past twelve years, I have been endeavoring to accumulate sufficient stock of some of them to offer them for sale; and at the same time make comparisons with other named varieties sent out by Mr. Hollis.

Mr. Hollis passed away three years before I acquired his collection, so some of the labels had been lost; where there were several lost of one variety, I found different names for what appeared to be the same variety. I still have many of his choicest, that I am not sufficiently sure of their being true or have in too limited quantity to offer in this catalog; but hope to offer them in the near future, as soon as comparisons can be made, and stock accumulated.

All varieties originated by Mr. Hollis offered herein are to the best of my knowledge true to name, and meet comparisons with others purchased from Mr. Hollis and the descriptions published by the Cornell University Bulletins, where a large number of his varieties were donated for the experimental garden of the American Peony Society.

You may be interested also in the Irises, Phlox, Tulips, Hyacinths, Crocus and Narcissus and many other Fall plants offered herein, all of which can be shipped and planted this Fall. Should any of them fail to grow, I will appreciate it if you will advise me, as I want everything I send you to grow and give you good results, as I guarantee them to be true to name.

I assure you I will take as much pains in the future as in the past, to send out nothing but first-class stock, and to continue the same prompt, liberal and conscientious dealings. Hoping to receive a share of your orders this Fall, I am,

Respectfully yours,

J. K. ALEXANDER (The Dahlia King)

Introduction

But a few short years ago fall planting was considered an experiment, an innovation. Today it is accepted as a fact, that certain hardy perennials, especially Iris, Peonies, Lilies and all Hardy Plants listed in this catalog, must be planted in the fall for best results the following spring.

And then of course there are those lovely early spring flowers, the bulbs of which come from Holland. Tulips, Hyacinths, Daffodils, and the Lively Crocuses, must all be planted as early in the fall as they may be obtained in order to be able to make some root growth before they freeze up and slumber, to awaken bright and early the following spring.

You will find in this modest catalog of mine the best standard varieties of the majority of Dutch bulbs, also a very fine collection of these Peonies that have made the name of Hollis famous wherever Peonies are grown. Iris are ready for immediate shipment. I begin to dig Peonies along the middle of September. The Dutch bulbs generally reach me the last week in September or early in October. Early orders are invited.

With best wishes for your 1929 spring garden, I am as ever,

J. K. Alexander, The Dahlia King,

Giant Darwin Tulips

The 31 Finest Darwins in Cultivation

The late flowering Darwin Tulip has outclassed all its predecessors in type, style, and beauty, and is at the present time the Queen of the Tulip family. It attains a height of two to three feet, with strong heavy foliage, erect and robust stems, terminating in large and massive flowers. The colors range from palest lilac to purplish black, including shades of rose, scarlet, crimson-violet, brown and white; most of the flowers showing a particular satiny effect. They bloom with the Columbines, three or four weeks after the Single Early Tulips. Clumps of them along the edge of shrubbery and in the hardy plant borders are very effective. They are especially beautiful when cut for vases. The Darwins grow tall, bloom for a long time, and last well as cut flowers. If planted six inches deep and left undisturbed, will flower for many seasons.

Shipped prepaid to any part of the world at prices below. One each of the 31 Finest Darwin Tulips listed for $3.00 prepaid.

NOTICE

Buy your Darwin and Breeder Tulips this Fall. These varieties flower for Memorial Day or just before and save you dollars when you need flowers for Decoration Day and you always can buy your bulbs for less money than it costs for what few flowers you have to buy.

My Tulips are all top-size bulbs, not seconds or third size. REMEMBER, everything is guaranteed to be perfectly satisfactory in every way. Be sure to try some of my Tulips and other Fall Bulbs and Plants this season.

Breeder Tulips

These are the old Dutch self-colored Tulips. They are of enormous size and vigorous growth, and are borne on extra tall strong stems. These Tulips are very valuable for the garden, producing by their refined colors a most artistic effect.

The size and remarkable color of these Tulips place them distinctly in a class by themselves. The Breeder Tulips are late to bloom, large in size, and many of them are sweet scented and make a very satisfactory cut flower. There is nothing that has the charm and delicate colorings of the old fashioned Breeder Tulips.

Try these extra selected Bouquet Tulips and have some of the best grown.

One each of the 19 varieties for $2.00 prepaid, or 6 each for $10.00 prepaid.

AMAZONE. (New.) One of the most beautiful shades of light violet, very fine. $1.25 per dozen.

WARRIOR CHIEF. Dark brown, a wonderful flower, very strong grower. $1.00 per dozen; $8.00 per 100.

Tulips for Bedding

The Tulips are universal favorites; the most popular and attractive for early Spring display in the garden or for Winter blooming in the house or conservatory. Tulips can be used many places in the garden, if one wishes to get the most out of them.

Large masses of one or two or three solid colors are well known and prove one of the showiest and most attractive ways of growing these “Queen of Spring Flowers.” In groups, several of one color together, they are very effective, especially along the hardy border, or in beds that will later bloom with Summer colors. It is best to avoid the one-flower spotty effect, as masses of one color make a far more satisfactory showing. For April and May the Tulip adds just the needed bit of color to brighten the entire lawn.

For Spring flowers, plant bulbs outside in October and November. The soil should be thoroughly dug over and a liberal supply of well rotted manure applied. Fertilizer is also good. For best effect, when planting in small clumps, the bulbs should be set four inches deep and four inches apart, but in large beds or borders a distance of five or six inches between the bulbs can be allowed.

SHIPPED PREPAID to any part of United States or Canada at prices quoted.

Single Early Tulips

One each of the 12 Single Early Tulips listed below for $1.00 prepaid. 3 of each for $2.50. 6 of each for $4.00 prepaid.

Single Early Tulips should be planted about 5 inches deep and from 5 to 6 inches apart. To obtain the best results, both when forcing and when planting in your garden, the very finest select quality, heaviest top-size bulbs should be used.

It is this very scarce quality of bulbs that we furnish exclusively and upon such quality our prices have been based.

ARTUS. A large brilliant flower of dazzling scarlet. Splendid for out of door planting in mass or groups where it is very showy. Early flowering. 60 cents per dozen; $4.00 per 100.
BRILLIANT. (STAR.) Brilliant scarlet, black center, large flower, tall erect stem. A grand variety for forcing and for bedding. $1.00 per dozen; $8.00 per 100.
COULEUR DE CARDINAL. A warm red Tulip with a plum-colored bloom on the outer petals. Handsome globular form and a strong stem that makes it particularly fine for bedding. Creates a rich effect, planted among purple pansies. Its place is essentially in the open where it produces an effect both rich and satisfying. $1.00 per dozen; $8.00 per 100.
COTTAGÉ MAID. Soft pink suffused with white. 75 cents per dozen; $5.00 per 100.
FLAMINGO. Brilliant dark rose, slightly lighter rose edge. Large round flowers of very great substance, highly recommended for forcing and for bedding. 75 cents per dozen; $5.00 per 100.
FRED MOORE. Bright orange, scarlet shaded, early forcing. 75 cents per dozen; $5.00 per 100.
KEIZERKROON. (Grand Duc.) Of a glorious and attractive blending of colors. Scarlet red with broad yellow margin. Large flower that is well formed, and proves to be one of the showiest. A strong sturdy grower and one of the finest tall varieties for bedding. Early to blossom. $1.00 per dozen; $7.00 per 100.
PROSPERITY. Brilliant dark rose, extra for forcing, flowers of medium size, best commercial variety. 75 cents per dozen; $5.00 per 100.
POTTEBAKKER SCARLET. Tall early bright scarlet with yellow center. 75 cents per dozen; $6.00 per 100.
PRINCESS MARIANNE. White, slightly tinged rose, large flowers, excellent for forcing. 75 cents per dozen; $5.00 per 100.
YELLOW PRINCE. Golden-orange yellow; the best of the low-growing yellow Tulips; sweet-scented. 75 cents per dozen; $5.00 per 100.
WHITE HAWK. (Albion.) Pure white, very large flowers of great substance, which last very long. It is a grand market variety. 75 cents per dozen; $5.00 per 100.
Selected Double Early Tulips

With few exceptions the Double Tulips should be used for bedding only, as they do not force so well as the single varieties. While the Double Tulips may not be quite so effective as the single sorts, the flowers are more durable, and, as they bloom later, they prolong the flowering period.

Usually it is advisable to use only one variety of Double Tulips in a bed, rather than to combine them as with the Single Tulips. Beds of different varieties can usually be arranged within a few feet of each other, thus permitting the characteristics of each variety to stand out distinctly, and also to give the effect of one large bed of double flowers.

One each of the 4 selected Double Tulips shipped prepaid for 50 cents. Three of each for $1.00. 6 of each for $1.50.

BOULE DE NEIGE. (White Peony.) Pure White. 75 cents per dozen; $6.00 per 100.
COURONNE D’OR. A magnificent full deep golden-yellow slightly shaded orange. An exceptionally good bedding variety and splendid for forcing and cutting. 75 cents per dozen; $6.00 per 100.
MURILLO. An exquisite soft pink, with white markings. Makes beautiful beds and is the most easily forced. 50 cents per dozen; $4.00 per 100.
REX RUBORUM. Scarlet, green tipped, for bedding only. 75 cents per dozen; $5.00 per 100.

Tulip Mixtures

SINGLE EARLY TULIPS. Finest mixture. 50 cents per dozen; $3.50 per 100.
DOUBLE EARLY TULIPS. Finest mixture. 50 cents per dozen; $3.50 per 100.
BEAUTIFUL DARWIN RAINBOW MIXTURE. 50 cents per dozen; $4.00 per 100; $25.00 per 1,000.

Single Named Hyacinths

25 cents each; $2.50 for 12; $4.00 for 25, prepaid to any part of United States.

My prices are for Exhibition Size bulbs, which produce the finest flowers both in size and quality, and are considered far superior to first, second or third size bulbs offered at lower prices. This grade of bulbs is the best that can be produced, and is considered absolutely the best by all experts.

CITY OF HAARLEM. Strong, large truss of bright golden yellow.
GERTRUDE. Splendid, dark pink; large, compact spike.

L’INNOCENCE. Strong truss with large, pure white bells.
PERLE BRILLIANT. Sky blue, tinged lilac; the finest light blue.
QUEEN OF THE BLUES. A lovely bright blue.

Crocus, Spring-Flowering

“The Heralds of Spring”

Crocuses, among the first flowers to bloom in the early Spring, are always the admiration of everyone, especially when planted amid the grass in lawns, their bright flowers producing a fine contrast. They may also be planted among other Spring-flowering bulbs, such as Tulips, Hyacinths and Narcissi, making a splendid show before the other varieties begin to bloom. The results obtained from planting Crocuses in pots or pans for house blooming are very satisfactory. For this purpose it is advisable to use the best. To grow Crocuses in pots, place the bulbs about one-half inch apart and one-half inch deep, keeping them in a cool place until thoroughly rooted, when they may be brought to the light for blooming. In the open, bulbs should be set at least 3 inches deep.

Named Crocus

KING OF BLUES. Dark blue-purple. 50 cents per dozen; $3.00 per 100.
KING OF WHITES. Extra white. 50 cents per dozen; $3.00 per 100.
MAXIMILIAN. Beautiful sky-blue. 50 cents per dozen; $3.00 per 100.
PRES. LINCOLN. Purple. 50 cents per dozen; $3.00 per 100.
SIR WALTER SCOTT. White striped purple. 50 cents per dozen; $3.00 per 100.

Choice Mixture of Crocuses

The following mixture is well adapted to bedding, naturalizing or planting in conspicuous places in lawns. The colors include a complete selection of all the shades and markings, as well as the self colors, beautiful pure whites, white varieties delicately tinted, pale yellows and golden yellows, all shades of blue and purple, together with striped and variegated varieties.

25 cents per dozen; $2.00 per 100; $15.00 per 1,000; $25.00 at 1,000 rates.
Large-flowering Narcissus "Emperor" one of the best for naturalizing.

Narcissi
Daffodils and Jonquils

Culture Outside. The large-flowered, or the sorts which have large bulbs, should be planted from 4 to 6 inches deep and about 5 inches apart. Planting should be started as soon as possible after October 1st, but bulbs may be planted any time before ground is frozen too hard to work.

Culture in Pots. As a general rule treat Narcissi the same as Hyacinths. They should be planted about 6 inches deep in a 6-inch pot or pan and put in a dark and cool place where they may develop their roots. Let them remain until January 1st, when they may be removed to a warmer temperature, but keep in the dark until the foliage is about 6 inches high; then bring to the light and allow them to flower.

There is at the present time a very large assortment of Narcissi from which to make selections, and nearly all are of a quality worthy of cultivation. It is almost impossible to list the complete line of these beautiful Spring flowers, but the following few I offer are varieties which I deem will give the best satisfaction.

I recommend the large Double Nosed Bulbs, as they are Mother Bulbs that I can guarantee to bloom. They cost a trifle more, but are twice the value, and I can recommend them as far superior to the ordinary sizes. Bulbs shipped prepaid to any part of the world at prices quoted.

One each of the 7 different Varieties of Narcissi, Daffodils and Jonquils for $2.00 prepaid.

Six each of the 7 varieties for $6.00 prepaid, or twelve each for $10.00.

**Bicolor, Empress.** A new giant variety with immense flowers. Rich yellow trumpet with sulphur-white perianth. $2.00 per dozen.

**Bicolor, Victoria.** Erect flowers with golden-yellow trumpet and pure white perianth. Flowers large. $2.00 per dozen.

**Emperor.** (Ajax Type.) (See above illustration.) New giant variety with immense flowers, often three and one-half inches across. Rich, full, yellow trumpet, deep primrose perianth. $2.00 per dozen.

**Golden Spur.** Another giant variety of rich golden-yellow. $2.00 per dozen.

**Poeticus Ornatus.** Better than the Poet or Pheasant's Eye Narcissus. Blooms earlier than the others, making it very desirable for Decoration Day. Pure white with orange-red cup; very fragrant. $1.50 per dozen.

**KING ALFRED.** A new gigantic remarkably handsome Daffodil; unrivaled in size and beauty. Exceptionally large, golden yellow flower with deeply frilled mouth; elegantly recurved. $4.00 per dozen.

**PAPERWHITE.** (Grandiflora.) The most popular Narcissus for growing in the house, in pebbles and water. Produces clusters of pure white, fragrant star-shaped flowers in 3 or 4 weeks after starting. Planted in the Fall makes fine flowers for Christmas. $1.50 per dozen; $10.00 per 100.

**Fancy Mixed Narcissi**

This mixture consists of all the fine varieties such as the Empress, Emperor, etc. $1.25 per dozen; $8.00 per 100; $75.00 per 1,000.
One of my fields of Iris Germanica with 62,000 plants in full bloom, containing 150 varieties.

Photo taken June 19, 1927.
The Iris  
Fleur de Lis or Iris Germanica

Familiar and well-beloved flowers of Spring. The purity of their beauty and their haunting fragrance is decidedly refreshing. The winsome, modest beauty of some, forming a striking contrast to their more glorious sisters arrayed in a sheen of iridescent splendor. They fairly outliveth the Orchid in the wide range of coloring, which includes yellows, from light canary to deep golden; blues, from soft lavender to intense purples; red, from pinkish mauve to claret and maroon; beautiful bronzes, and pure whites; while some varieties are marked and margined in exquisite harmony.

The Iris grows well in any kind of soil. Succeeds in partial shade but gives the most satisfactory results in well drained sunny location. Iris Germanica are perfectly hardy and require only ordinary cultivation; growing luxuriantly and spreading quickly, giving larger and more beautiful flowers. They should be planted in the Fall during August, September and October. Plant the bud or crown about two inches below the surface, hoe or cultivate frequently for best results.

In the following descriptions Standards signify the three standards (erect, or upright curling petals); Falls — the three falls, or drooping petals.

Peonies

The Peonies are among the noblest and most magnificent of our herbaceous plants. They are the "Queen of Spring Flowers," and are well adapted for massing in beds, and particularly valuable for planting in groups throughout the perennial or shrubbery border, where their brilliant hues add beauty to the entire surroundings. Their requirements are so simple,—a good, rich, deep soil; they are perfectly hardy, and produce their wealth of flowers in great abundance.

**TIME TO PLANT:** Peonies may be planted with perfect safety any time from the middle of August till the ground freezes in the Fall, and in the early Spring until growth has advanced too far. September and October even as late as the ground is kept open is the best time, as they then make a root growth before Winter sets in, usually blooming the following Spring.

After being transplanted, Peonies will not produce typical blooms the first season, many fine double varieties throwing single or semi-double flowers, and it is not until the third year that the finest flowers are produced.

They will abundantly repay good care and nourishment; but they resent an over abundance of fresh manure too near the roots. Well decayed manure is far better. A division of the clumps at long intervals, when they become so crowded as to interfere with freedom of bloom; and the soil kept loose and free from weeds, is all that is necessary. Where grown for cut flowers, they should not be disturbed oftener than is necessary; where they are grown for the sale of roots, they may be divided every second or third year. Plant so the eyes will be from two to three inches below the surface. Lay roots flat. Do not stand them on ends.

My prices are for good strong roots that, planted in the Fall, and given proper care, may reasonably be expected to bloom the following Spring. Varieties differ so greatly in habit that the expressions one-year and two-year, or the number of eyes, convey no meaning whatever; a strong root with one eye often being far better than a weak one with many. My prices are as low as the true varieties, and the size of the roots I send out will warrant. I grow and sell my own roots, and make no pretense of competing with those who have no stock of their own but buy and sell indiscriminately.

All Peonies shipped prepaid to any part of the world at prices given.

Sarah Bernhardt. (Lemoine 1896.) A very large, beautiful, flat, imbricated, compact semi-rose type blossom. Flowers of remarkable size and freshness in huge clusters, and of unusual perfection in form. First impression is an apple-blossom pink, with each petal silver tipped. According to color chart, a mauve-rose; guards clear, collar same as guards, center clear. Pleasant fragrance, late blooming. Habit of growth, medium erect, tall, medium compact, growth strong. $3.00 each; $30.00 per dozen.

Sir Thomas Lipton. (Kelway.) Large, loose, flat, semi-double flower. A uniform bright rose crimson, showing a very fine scarlet-yellow inner rim in the center. Pleasant fragrance. Mid-season. $2.00 each; $20.00 per dozen.

The King. (Kelsay 1890.) One of the finest Peonies grown. Very large, compact, rose type; violet-rose, lighter in center. Mid-season. $5.00 each; $50.00 per dozen.

Umbelata Rosea. (Unknown.) Informal rose type. Guards violet-rose shading to amber-white center. Strong upright grower. 75 cents each; $7.50 per dozen.

Venus. (Kelway 1888.) Rose type, almost white but tinged with shell-pink. Mid-season. Fragrant. $1.00 each; $10.00 per dozen.

Mixed Peonies

Each season, in handling our Peonies, a small amount becomes mixed, many times the very choicest varieties. It does not prove worth while for me to plant these separately, to ascertain their names, so I am offering them at 35 cents each; (3 for $1.00), as long as they last. This mixture is apt to include some of the best new creations not offered in my catalog; and includes both Double and Single varieties.

Special Peony Offer. To give you an opportunity to have a more complete choice and collection of Peonies, I am making the following offer:—

I will ship you Three Choice Peonies for $5.00, transportation charges prepaid to any part of the United States or Canada. These to be three distinct varieties, that I can recommend to give satisfaction.
Hardy Perennial Phlox

Among hardy herbaceous plants, none are more showy or more easily grown than the Phlox. They are very desirable planted in groups. Individual clumps throughout perennial beds make a very satisfactory display, while mass plantings of one color make the most effective showing. The long season of bloom, the soft tints of flowers, commencing to bloom in July, and lasting for weeks, makes them always favorites of the garden. Their flowers have a very agreeable odor, and are produced in abundance. The plants are perfectly hardy and will grow year after year with but little care. I recommend frequent cultivation, however, as they quickly respond to it, producing much larger trusses, and larger and more beautiful individual flowers. Simply keep the ground clear of weeds and well hoed. They will grow and do well in any soil; but prefer a good rich well drained loam. They may be planted in the Fall during August, September and October; and in the Spring during April, May and until the plants are too far advanced in June. In planting be sure that the crown of the root, that is, the part where the new shoots start, is two inches below the surface of the ground.

Choice New Phlox for 1928

BEACON. Brilliant cherry-red, one of the best red shades grown. 50 cents each; $5.00 per dozen.

Hardy Perennials for Fall Planting

We are sure that nothing gives our customers greater satisfaction about their grounds than a well arranged flower garden of Hardy Plants. With the proper selection of varieties, flowers may be had in bloom from early Spring until late frosts. Many have grown well without the least harm from frost; once planted, they make a permanent bed and are therefore less trouble and expense than when tender plants are used, and while they are of the easiest culture and do better with less care than most varieties, yet they well repay any extra attention that may be given them. A properly prepared bed to receive them should be deeplyforked or spaded with a liberal dressing of well-rotted manure thoroughly worked in. Bone-dust and also some commercial fertilizers produce excellent results and may be applied in small quantities several times during the season and lightly raked into the soil.

Although not absolutely necessary, a Winter covering of long, strong, coarse litter or similar material will afford such protection as to guard against sudden changes of freezing and thawing, and the plants will be in a stronger condition to make an early start in the Spring to pay for the little trouble incurred. Manure can also be used, but a heavy covering on evergreen varieties would be likely to rot and kill them. All hardy plants shipped prepaid at prices quoted.

ASTILBE

ASTILBE, QUEEN ALEXANDER. Beautiful pink flowers on plants 12 to 18 inches tall. 50 cents each; $5.00 per dozen.

ACONITUM (Monkshood)

A. FISCHERI. Azure. Grows from 18 inches to 2 feet high, blooms from July to August. Large dark blue flowers in a raceme. 50 cents each; $5.00 per dozen.

HYBRID PYRETHRUMS

This mixture consists of many colors, white, rose-pink, vivid scarlet, pale flesh-pink, and silvery-rose. They should be planted in garden beds and will give the best effect. 35 cents each; $3.50 per dozen.

DELPHINIUM or HARDY LARKSPUR

Mrs. Ely, author of "A Woman's Hardy Garden," says: "Perennial Larkspur may be planted as soon as the Spring has opened. The ground should be well drained and carefully prepared, but manure must not be allowed to come in contact with the roots, or grubs are apt to destroy the plants. A little finely ground bone meal or dusted on the plant early in May will be of benefit, and in late Autumn, coal ashes should be sifted over the crowns of the plants to protect them from the white grubs, which is their only enemy.

BELDONNA. The freest and most continuous bloomer of all, never being out of flower from the end of June until cut down by hard frost. The clear turquoise-blue of its flowers is not equalled for delicacy and beauty by any other flower. 35 cents each; $3.50 per dozen; $25.00 per 100.

BELLAMOSA. A dark blue form of the popular light blue Belladonna. A very splendid grower and a free bloomer. Flowers from June until frost. Grows 3 feet high. 35 cents each; $3.50 per dozen; $25.00 per 100.

CHOICE HYBRIDS. Including all the standard colors. I can supply these in mixtures only. 25 cents each; $2.50 per dozen.

DIANTHUS—PINKS

DIANTHUS BARBATUS. (Sweet William.) 10 to 20 inches high, blossoming in July and August. One of the oldest garden flowers, which perpetuates itself by self-sowing. Colors, a good mixture of the most beautiful shades of crimson, white and Newport pink. 25 cents each; $2.50 per dozen.

DIANTHUS PLUMARIUS DELICATA. New seedling pink, from Dianthus plumarius. The earliest of all the Dianthus, a delicate beautiful cameo pink flowers, blossoming in June. 9 inches in height. 35 cents each; $3.50 per dozen.

DIANTHUS SEMPERFLORENA. 9 to 12 inches. Single and semi-double flowers. Pink, with crimson-red center. 25 cents each; $2.50 per dozen.

HARDY GARDEN HELIOTROPE

Valeriana (Spurred Flower.)

VALERIANA OFFICINALIS. The old-fashioned garden Heliotrope with pinkish or lavender flowers with Heliotrope fragrance. Each plant blooms in June and July. Height, 4-5 feet. 25 cents each; $2.50 per dozen.

LYCHNIS

CHALCEDONICA. (London Pride.) Blooms July to September. Height 3 feet. Color orange-scarlet. It is an especially desirable perennial, with brilliant heads of flowers. 35 cents each; $3.50 per dozen.

PHYSOSTIGIA

PHYSOSTEGIA VIRGINIANA. (Ladies' Pink.) An elegant plant with dark, glossy, green foliage and long spikes of soft rose flowers; excellent for cutting. It produces its flowers during July, August, and September, when few flowers are in bloom. Height, 2 to 3 feet. 25 cents each; $2.50 per dozen.

PHLOX SUBULATA

PHLOX SUBULATA. Dwarf Moss Phlox. A much prized old-time garden plant, useful for colonizing where it is desired to cover the earth with a tufted, dense, evergreen mat. It is much used in cemeteries, rockeries, for borders, and old-fashioned gardens. Blooms profusely in the Spring and is sweetly scented. ALBA. Pure white. 25 cents each; $2.50 per dozen.

LILACIANA. Flowers clear lilac. 25 cents each; $2.50 per dozen.

ROSEA. Rose-Pink. 25 cents each; $2.50 per dozen.

RANUNCULUS (Buttercup)

ACRIS FL. PL. Tall double Buttercup. 35 cents each; $3.50 per dozen.

PRUNIA NUM. FOSTERIANUM. 35 cents each; $3.50 per dozen.

SEXANGULARE. Hexagone Stonecrop. 35 cents each; $3.50 per dozen.

SPECTABILE. Showy Stonecrop. 35 cents each; $3.50 per dozen.

STOLONIFERUM. Running Stonecrop. 35 cents each; $3.50 per dozen.

SHASTA DAISY (Burbank)

ALASKA. Large pure white. 35 cents each; $3.50 per dozen.

SPIREA or ASTILBE

(Goat's Beard, Meadow Sweet.)

Elegant border plants with feathery plumes of flowers and neat, attractive foliage; succeeds best in a half-shaded location in rich moist soil.

FILIPENDULA FL. PL. (Double-flowered Drop-wort.) Numerous corymbs of double white flowers; buds tinted rose-pink; produced on stems 15 to 18 inches high, during June and July. Finely cut distinctive fern-like foliage. 35 cents each; $3.50 per dozen.

TRADESCANTIA (Spiderwort.)

TRADESCANTIA ALBA. An all-round plant for wet or dry, shady or sunny situations, continuing in bloom from early Summer until frost. Pure white, three-petaled flowers in clusters on long stems, and long pointed foliage. Height 2 feet. 25 cents each; $2.50 per dozen.

TRADESCANTIA VIRGINIANA. An old garden plant, with grass like foliage and violet-blue flowers all summer. Height 2 feet. 25 cents each; $2.50 per dozen.
Hardy Lilies

HEMEROCALLIS

Day Lily

Popular hardy plants, belonging to the Lily family. They succeed everywhere and should always be included in the border of old-fashioned hardy plants.

APRICOT. Rich apricot colored flowers. Plants grown 2½ feet tall. 25 cents each; $2.50 per dozen.

AURANTICA. (Carolina Lily.) A beautiful large trumpet-shaped Day Lily with fragrant orange flowers. One of the most satisfactory; height 2 to 3 feet; flowers in June and July. 35 cents each; $3.50 per dozen.

FLAVA. (Yellow Day Lily.) The best known variety; very fragrant, deep clear lemon-yellow; flowers in June; height, 2 to 3 feet. 25 cents each; $2.50 per dozen.

FULVA. (Tawny Day Lily.) One of the most common varieties. Height, 4 to 5 feet; trumpet-shaped flowers of a bronzy orange-red color; flowers from June to August. 25 cents each; $2.50 per dozen. One each of the above four varieties for $1.00 prepaid.

FUNKIA Plantain Lily.

FUNKIA. (Plantain Lily.) The Plantain Lilies are among the easiest plants to manage; their broad, massive foliage makes them attractive subjects for the border, even when not in flower. Lavender-blue blossoms in July, August and September. They succeed equally well in sun or shade. 25 cents each; $2.50 per dozen.

YUCCA Adam's Needle.

YUCCA FILAMENTOSA. A stately foliage and flowering plant equally imposing in solitary or group planting; always conspicuous. The broad, sword-like foliage is evergreen, while in mid-summer it shows great erect, branching stems, bearing a showy display of pendant, creamy white bells. Very fragrant; flowers in July and August. 50 cents each; $5.00 per dozen; large plants, $1.00 each prepaid.

Dahlia Cutting Knives

Many of my customers have asked me what kind of a knife I use in separating my clumps of Dahlias, so thinking it will make it convenient for my customers, I am offering the knives we use to separate the Dahlia clumps. The above illustration shows their general appearance. This knife has a two inch blade made of finest tool steel, with nickel-plated closed-end ferrules, and every blade securely riveted in the handle. The blades are ground sharp and hand honed. This knife has an oval taper rubberoid handle. In addition to being used in cutting Dahlias, it is made for Grape picking and Pruning purposes. A good pruning knife is always handy. The women folks like them for paring apples and potatoes. 50 cents prepaid.

Ornamental and Flowering Shrubs
Shipped by Express at Purchaser's Expense.

A good Shrub collection will present the greatest variety of colors throughout the season, both in flower and foliage.

Irregular massing is the most picturesque method of shrub planting. When right selections are made, they will serve almost as well as Evergreens, to shut out from view fences and other low unsightly objects. It is my constant aim to grow everything that is useful, hardy and worthy of cultivation in our climate.

Annual pruning should be done directly after flowering. When planting, the best way to maintain a balance between roots and branches is to cut the latter to half their length. I prune all I ship out, so they are properly pruned, and ready to plant and grow. When pruning, the old scraggly wood and spindly shoots should be cut out. When planting, the holes should be made large enough to allow the roots to be spread out in a natural way. Firm planting is essential to the future well-being of the shrub. In planting, therefore, the soil should be crowded around the roots firmly. The top-soil should be kept cultivated to a depth of two to three inches.

If heavy bushes are desired I have good large specimens that will produce immediate effect. These are designated by the word specimens throughout the descriptions.

**BERBERIS. Barberry**

BERBERIS THUNBERGII. Where a low, dwarf, deciduous hedge is wanted, nothing equals this beautiful Barberry. It is spreading in habit, growing very quickly from the base and requiring but little pruning to keep it in shape. The leaves are small, light green, and towards Fall assume rich, brilliant color, the fruit or berries becoming scarlet; absolutely hardy in all parts of the country.

**CALIFORNIA PRIVET**

Of all ornamental hedge plants this is the most popular and more of it is planted than all others combined. Its foliage is a rich, dark green and is nearly evergreen, remaining on the plant until mid-winter. It is of free growth and succeeds under the most adverse conditions, such as, under dense shade of trees where other plants would not exist.

To form a dense hedge from the base up the plants should be severely pruned the first two seasons. Plant the one-year old size 8 inches apart in the row, the larger sizes 10 to 12 inches apart.

**HYDRANGEA**

HYDRANGEA ARBORESCENS GRANDIFLORA. (Snowball Hydrangea.) This magnificent, perfectly hardy American shrub has snow-white blossoms of largest size. One of its most valuable characteristics is its coming into bloom just after the passing of all the early Spring shrubs, while its long flowering season, from early June until late August, makes it a valuable acquisition in any garden. Small plants, 50 cents each; $5.00 per dozen; specimen plants, $1.00 each.

**HYDRANGEA PANICULATA GRANDIFLORA.** Without doubt the best known and most popular Autumn flowering shrub in cultivation at the present time. The flowers, which are borne in dense, pyramidal panicles a foot long in the greatest profusion, are white when they first open, but gradually change to rose color, and remain in good condition for weeks.

Extra fine bush plants. $1.00 each; $10.00 per dozen.

**SPIRITIA**

**SPIRITIA.** (Bridal Bower.) By many this is regarded as the finest of all Spiraeas, and it is assuredly one of the most esteemed shrubs in cultivation. It forms an erect bush with graceful arching branches, well covered with neat, rich green foliage, and in early Summer a profusion of large, pure white flower clusters. Very hardy and most effective.
